

Another international recognition, Garware-Wall Ropes receives CE-marking

Pune(Voice News Service):- A global lead manufacturer of technical textiles, with a presence in around 75 countries today announced that it has secured CE certification for its Polypropelene geotextile range of products which would enable the company to further strengthen its international presence by seamlessly circulating its products across 30 countries of the European Economic Area (EEA).

The letters "CE" are the abbreviation of French phrase "C o n f o r m i t é E u r o p é e n e" which literally means "European Conformity". The CE mark, is a mandatory conformity marking for certain products and acts as a trade passport for undertaking sales in EEA. Commenting on the achievement, Mr. Tiru Kulkarni, VP – GEO Division, GWRL said "Being able to add the CE certification to our capabili-

ties is a great source of pride for us. The commercial recognition will allow us to penetrate further into the European markets thereby extending our international footprint.

Our products are of the highest standards and with this breakthrough we are endeavoring a promising outlook for growth in the coming years."

The success in the current audit has opened doors to other GWRL product

range and we are looking forward to replicating similar success stories in the future." he further added.

Polypropelene Geotextile are a range of high performance woven products specified by civil engineers for a wide variety of applications used in building and construction works such as – separation, filtration, drainage, protection, stabilization and reinforcement.
